## County Grand Jury Investigates Gambling at Seal Beach

### 'SNEAK' RACE WIRE IS DUE FOR PROBE

Action Against Gaming Doubtful, In Light Of Past Experience

The grand jury was probing the gambling situation at Seal Beach and other Orange county communities, it was reported today.

In the light of this news, official circles were speculating today on the possibility that the grand jury will probe reports that a "sneak race horse" wire has been installed in the rear of a Seal Beach cafe, to relay information to Los Angeles from the Santa Anita race track.

Reconvenes Monday

The grand jury was not in session today, but is expected to reconvene next Monday.

Sheriff Logan Jackson, when informed by The Journal Monday of a dispatch from Los Angeles which contained reports of the alleged "sneak race horse" wire, said he had no knowledge of the existence of such a device in Seal Beach. He said he would investigate and that if such a device were found he would take steps to eliminate it and arrest anyone guilty of illegal acts in connection with it. District Attorney W. E. Menton made a similar statement.

Reports reaching The Journal were to the effect that those desiring to get into the "back room" of a cafe at Seal Beach where the racing wire allegedly was installed, were denied admittance, on the plea that "things were closed up." The move for secrecy was said to have been taken in fear of a sheriff's office raid.

Action Doubtful

In view of past experience with a large number of gambling case arrests and prosecutions, it was regarded as doubtful today that the grand jury would take any decisive action in respect to general gambling conditions. About two years ago there was a large number of arrests and the defendants were tried before Judge H. J. Hines. Almost every case resulted in the jury finding the defendants not guilty. In view of this experience, and the apparent unwillingness of Seal Beach juries to convict, it is believed that the grand jury will be slow to recommend wholesale arrests or prosecutions, even if it is convinced that gambling does exist.

This, however, might not be true in the case of a sneak race horse wire if it were found and were proved to be operating illegally.

Cases Ruled Out Here

During the time of the wholesale arrests, attempts were made to try some of the defendants in (Please Turn to Page 2, Col. 3)

## G. O. P. SURPLUS IS \$260,480

WASHINGTON, Jan. 2. (AP)—Swinging into the 1936 campaign, the Republican national committee reported today that it had a surplus of \$260,480.23 and the Democratic national committee listed a war chest of \$22,710.76.

Their statements to the clerk of the house were filed shortly after the American Liberty league—frequent New Deal critic—had revealed it spent \$389,973.92 during 1935.

### BLACKS WARN ITALIANS IN WAR ROW

Reprisals Threatened Unless Italy Halts 'Illegal' Methods

(By The Associated Press)

Ethiopia, her first major offensive reported away, served notice on League of Nations today that she will retaliate by seizing the property of Italians unless Italy abandons alleged outlawed war methods.

The African empire, in a communication to Geneva, promised to refrain from reprisals entailing inhumane treatment of Italian soldiers.

'Punishment' Campaign  
But in Italy, where Premier Mussolini's government already has accused the Ethiopian warriors of decapitating Fascist aviators and has cited that as a reason for a southern aerial bombardment in which a Swedish hospital unit was wrecked, observers speculated on a possible campaign of "punishment."

Reliable sources in Rome said Italy had vast quantities of "scientific weapons" which it is reluctant to use against the enemy, unless Ethiopian war practices arouse a national demand to "fight fire with fire."

Some Fascists thought a merciless aerial drive might be Italy's course to "punish" the hostile armies for the alleged decapitations. Official silence enfolded the movements of Ethiopian War Minister Ras Muligeta, who was reported to have launched general (Please Turn to Page 2, Col. 5)

### LAUNCH SEARCH FOR EXPLORER

**DUNEDIN, New Zealand, Jan. 2.**—The steamship *Discovery II*, laden with food, medical supplies and two airplanes, sailed today for the Bay of Wales, on the Antarctic Ross sea, to search for the American explorer Lincoln Ellsworth.

The 1036-ton vessel, dispatched by the British and Australian governments, was expected to arrive at Little America about the middle of this month. If Ellsworth and his pilot, Herbert Hollick-Kenyon, unreported since Nov. 3, after starting a flight over Antarctica have not been found by that time, the planes aboard the *Discovery II* will make searching flights.

## Not Liquor, But 'Darn Fool People' Cause of Trouble, Declares Santa Ana Man, 82

(Editor's note—What of the liquor problem in California? Where are we heading? Back to prohibition, say many. Included in this number are some who are not radical on the subject. Should the control of the business be taken away from the state board of equalization? Are state-controlled liquor stores desirable? These and scores of other questions are to be answered in a series of articles in The Journal, of which this is the sixth. Opinions will be largely those of Santa Ana and Orange county citizens, expressed on both sides of the controversial liquor question.)

By BOB GUILD

"It isn't the liquor problem at all that we're fighting, it's the darn fool people!"  
Sanford L. Wedgwood, 82 and on the retired list, looked back today over virtually every phase of the liquor proposition that America has seen, in an attempt to find an answer to the question, "What about liquor? Where is it heading?"

Mr. Wedgwood drove out to Santa Ana from the East 27 years ago, in a two-cylinder automobile. When he was a boy, he said, they had the liquor problem, when he

### Social Security, Now In Effect Here, Will Require Many Records

Something new—social security—went into effect yesterday in California, as well as in the United States. How will it work? The following is the second of a series of articles answering that question.—Editor.

By ROCH BRADSHAW

Folks who used to make jokes about the mysteries of filling out income tax returns have a new subject for wise-cracks today—the mazes of filling out forms for the new unemployment insurance program which is now in effect in Santa Ana, California and the nation.

Only, for the present at least, those who have the forms to fill out will be doing more cursing than punning. Besides that, employers subject to the new program must make returns not only to the state but also to the national government. Not only will they have to make returns on their total payroll, but also figure out and deduct contributions of their employees to the state fund.

In the main the information required for both the national and the state program are the same. For the state there will be as many as three forms for employers to fill out. First will come the registration form. Next there will be a form for those employers claiming exemptions. And finally there will be the contribution forms.

Many Questions  
The registration blank will ask the following information: Name of employer, address, whether business is trust, estate, partnership, association, joint stock company or corporation, date of organization, exact nature of business and, if industrial, what is product. It also will ask the greatest number of employees in any one week in 1935, which week this was, the smallest number, the number employed on Jan. 1, anyone within the organization not regarded as an employee and who has reason for exemption, and whether total exemption from the act is claimed, and grounds for such claim. Employers must supply the information sought in the forms by Feb. 15.

One ray of light is seen in the (Please Turn to Page 2, Col. 4)

**Many Home Loans**  
Counted in the total of \$16,000,000 already spent or loaned for recovery were more than \$4,000,000,000 loaned by the Home Owners Land Corporation and the Federal Farm Mortgage Corporation, but not taken from the treasury.

The grand total also was enhanced by loans from revolving funds, by which the same funds were used over and over again.

President Roosevelt has promised the peak of spending has passed.

### THIRD VICTIM DIES AFTER ACCIDENT

Long Beach Woman Is Fatally Injured As Autos Collide

Killed in County Traffic Accidents so far this year.....3  
Killed in County Traffic Accidents same time last year.....1

Death started the New Year on Orange county highways with three victims yesterday.

Eight traffic accidents resulted in two deaths and injury to 15 persons. The third death resulted from injuries sustained in a traffic accident last Sunday.

Mrs. Fernella Fingado, 23, wife of George A. Fingado, 28, of Long Beach, died in the Long Beach General hospital yesterday a short time after her husband's car had collided with another machine on the Coast highway one and one-half miles east of Seal Beach. The accident occurred at 1 a. m. yesterday.

Travels 348 Feet  
According to a report on file at the California Highway patrol office, Mr. Fingado attempted to make a left turn across the highway to a roadside cafe when a car driven by James Patmore, 23, Long Beach, crashed into the machine and traveled out of control for 348 feet before it came to a halt. Three others were injured in the collision. They were Eula Gustaveson, 20, Joaquin Winesman, 23, and Frank Holmes, 30, all of Long Beach.

Louis Gomez, 16-year-old Cypress youth, was instantly killed at 4:30 p. m. yesterday while riding a bicycle on Lincoln avenue, about one-quarter mile west of Cypress. According to a report filed by Highway Patrol (Please Turn to Page 2, Col. 1)

## 'Politics!' Shout Republicans As F.D.R. Announces Night Broadcast

WASHINGTON, Jan. 2. (AP)—The New Deal's surprise move to start congress off with a night broadcast by President Roosevelt became an explosive political issue today, with the Republican leadership shouting "politics" and demanding quick access to the same radio audience to make reply.

Republican Chairman Henry P. Fletcher declared that the plans for the delivery of the message on "the state of the union" at a joint session at 9 o'clock (E. S. T.) tomorrow night brought this annual Presidential duty "down to the level of a political speech."

## GANG LEADER 12 KILLED BY IS NABBED AIR CRASH

'Terrible Touhy' Head, American Engineer One Of Victims; Pilot Is Only Survivor

CHICAGO, Jan. 2. (AP)—"Tommy" Touhy, long sought as the leader of the "Terrible Touhy" gang, was seized today in a west side apartment, Lieut. Thomas Kelly of the state's attorney's police disclosed.

Touhy is wanted for questioning about a long list of postal robberies, including a \$130,000 holdup in Charlottesville, N. C.

Eldest of five brothers, the 41-year-old "Tommy" was accused by police of organizing the Touhy bootleg gang which controlled illicit liquor sales in northwest Chicago and its suburbs, defying the most powerful Chicago criminal outfits, including the Capone mob.

One of Tommy's brothers, Roger, was sent to prison in 1934 for the \$100,000 kidnaping of John Factor, international speculator.

## HINT NEW MAN IN LINDY CASE

TRENTON, N. J., Jan. 2. (AP)—Bruno Hauptmann's lawyers injected an unidentified man into the Lindbergh kidnap-killing today, disclosing they were checking a story that the man and the late Isidor Fisch were associated in the crime.

The latest move in defense efforts to keep Hauptmann from the electric chair the week of Jan. 13 developed on the first anniversary of the opening of his Flemington trial. "We are investigating a lead," said Attorney Frederick A. Pope.

## SENTENCE RIVAL OF SEN. NORRIS

LINCOLN, Neb., Jan. 2. (AP)—Grover George W. Norris, who in 1930 attempted to oppose U. S. Senator George W. Norris in his campaign for re-election, today was sentenced to three months in jail and fined \$100 for perjury in connection with his testimony before a U. S. senate investigating committee.

Replied to Fletcher, Senator Robinson of Arkansas, declared: "I think this effort to make a mountain out of a mole-hill is rather absurd. It seems to me that no one should desire to prevent the country from having the opportunity of becoming familiar with the President's viewpoints, and that anyone who takes that attitude can not justify it."

Speaker Byrnes hastened also to answer Fletcher. "This is the President's message and certainly he has the right to indicate when he prefers to make it," he continued. "While it is technically a message to congress, the American people and the nation have a right to hear what he has to say."

## LEADER SEES PASSAGE OF NEW PLAN

'Executive Approval' For Measure Likely, Is Prediction

(For additional news about congress, please turn to Page 7.)

WASHINGTON, Jan. 2. (AP)—Senator Robinson, the Democratic leader, today predicted passage of a cash bonus bill which will "receive executive approval."

In his first pre-session press conference, Robinson indicated such a bonus bill probably would be drafted along the lines of the Byrnes-Stetson proposal advanced last session under which the adjusted service certificates would mature in 1938 instead of 1945 as provided at present. It was designated so that payment of their face value this month would bring veterans about 97 per cent of their ultimate maturity value.

Offer Olive Branch  
Almost simultaneously the house steering committee backing the Patman bill to pay the bonus in \$2,000,000,000 of new currency, agreed not to fight, on the house floor, any sentiment of a majority of members to strike out the currency expansion method of payment.

"This committee is extending the olive branch," said Representative Patman (D., Texas), author of the bill, after a secret session attended by 14 of the score of members of the committee.

"We want to cooperate to the end that the veterans will get their money," he said. Meanwhile leaders of three major veterans' organizations lined up behind a new plan for immediate cash payment.

The \$1,000,000,000 plan would cost only \$1,000,000,000 immediately, instead of the \$2,000,000,000 usually mentioned. They said it offered an incentive, in the form of interest, to induce many veterans to hold their adjusted service certificates instead of cashing them now.

The plan—announced by the heads of the American Legion, Veterans of Foreign Wars, and the Disabled American Veterans—made no mention of methods of raising money, leaving that to the government.

The new concord among the veterans' organization was expected to give a potent impetus to a drive for early action. There have been free predictions by some congressmen that a bonus bill would be passed this campaign year—even over a presidential veto. The President has not disclosed his present attitude. ## KILLING BLOCKS MASS MURDER

MANILA, P. I., Jan. 2. (AP)—A daring mass murder plot was thwarted with the killing of bandit chieftain Teodoro Asedillo and two of his aides, constabulary officers revealed today.

Notes found on Asedillo's body outlined a plan for outlaws led by Asedillo and "Captain" Elias Encallado to raid towns on the shores of Laguna de Bay Jan. 3. The bandits planned to execute officials and all constabulary informers in the raided towns.

PIERRE, S. D.—England and France sure must have been proud of that peace plan they proposed to the League of Nations, when they didn't even defend it as a good one.

So the league boys just kissed her good by and spared around for another plan to keep their expense account going.

Selassie was agin 'em givin' Mussolini his spread. The little nations didn't like it cause they were afraid they'd wake up some mornin' with a new boss they didn't know. Mussolini didn't like it cause he didn't want France and England tellin' him how much he had to take.

I got a new idea about this. I'd just do away with the League of Nations and get be a plannin' board.

# RE-REGISTRATION OF VOTERS IS STARTED TODAY IN COUNTY

## 131 DEPUTIES ARE NAMED FOR WORK

The "open season" on voters began today. Registration deputies were "arming themselves" to go out and bag some 55,000 or 60,000 voters who must re-register in order to cast ballots at the May primary. County Clerk J. M. Backs was busy throughout the day, checking in registration deputies, giving them their instructions and supplies.

The last legislature decreed that there must be a complete new registration of voters this year. Its action followed revelation of asserted wholesale registration frauds in Los Angeles county. The legislature's act was supposedly motivated by a desire to purge the voting lists of persons who are no longer qualified to vote, as well as the names of those who have died.

**Call Challenged**

Under the permanent registration law a person did not need to re-register as long as he had voted at the general elections. This kept his registration alive. The law provides, however, that the legislature may call for a complete new registration whenever it feels this is advisable.

The legislature's call for new registration in Orange county to register voters. Of this number, 20 will be in Santa Ana, 13 in Anaheim, eight in Fullerton, seven in Orange and the others in the rest of the communities and rural districts.

**Deputies Assigned Here**

In Santa Ana each deputy will be assigned to a special district, although all must work in the business section. Deputies in other towns will not be assigned to districts.

Old registrations are good for any election up to April 1, which will include the recall election at Anaheim Feb. 7, at which voters will decide whether to recall Justice of the Peace Charles Kuchel.

At the last county election, Dec. 19, there were 54,965 registered voters.

man Ben Craig, a car driven by J. C. Thompson, route 2, box 240-D, Anaheim, had just passed a machine when Mr. Thompson saw an oncoming truck. In getting back into his own line of traffic his car crashed into the bicycle. Death's victim was knocked approximately 25 feet. From marks on the pavement, the car was believed by Officer Craig to have skidded 124 feet before coming to a stop. The body was removed to the Backs, Terry and Campbell mortuary in Anaheim, where Coroner Earl R. Abbey will hold an inquest.

**Beach Resident Dies**

Mrs. Dess Williams, 50, of 2532 Beverly avenue, Ocean Park, died at 5 p. m. yesterday in the Fullerton general hospital as the result of injuries sustained last Sunday when the car in which she was riding crashed into a Southern Pacific passenger train at the Orangehorpe crossing near Fullerton.

Riding with Mrs. Williams were her husband, Dess Williams, and her son and daughter-in-law, Mr. and Mrs. Forest Williams, all of the same address. Forest Williams was driving the car at the time of the collision. An inquest into Mrs. Williams' death will be held at the McAulay and Suters mortuary in Fullerton, where her body was removed yesterday.

Three persons were injured at 4 a. m. yesterday when cars driven by Jose Garcia, 25, Orange, and Donald B. Frank, 21, of Pasadena, collided nearly head-on on Whittier boulevard just inside the Orange county line. Garcia's car ended up by crashing into a telephone pole. The injured are Mr. Frank, Maria Gonzales, 35, Orange, and Francisco Gonzales, 43, also of Orange.

## MORE ABOUT BONUS

(Continued from Page 1)

Whether the veterans' proposal or some other would be the one to reach the voting stage first was not immediately certain. The new plan calls for:

1. Immediate full cash payment of the adjusted service certificates, which under present law do not mature until 1945.
2. Refunds of interest paid on loans on certificates.
3. Cancellation of interest accrued and unpaid.
4. A stipulation that veterans who do not desire to cash their certificates may receive interest on their maturity value from the date on which full payment becomes possible.
5. Issuance of special government obligations in lieu of adjusted service certificates to the value of about \$500,000,000 now held as security by the United States life insurance reserve account.

In a statement, the veterans' leaders explained their estimate of \$1,000,000,000 as the immediate cost.

They said it was based "on the fact that the United States life insurance reserve fund has liens upon these certificates to the extent of about \$500,000,000 for which other special government obligations can be issued, thus requiring no present cash outlay, and that approximately 500,000 veterans holding certificates to the value of \$500,000,000 upon which they have not borrowed, may reasonably be expected to hold them if the added inducement of interest payments thereon is extended to them."

## INFORMATION ON CREDIT PLAN IS AVAILABLE HERE

Information concerning the Modernization Credit plan, operating under the Federal Housing administration, is available at the Santa Ana chamber of commerce, which was announced today by Secretary Howard I. Wood.

Government loans for modernization, improvements and purchase of new machinery for industries in this area are available up to \$50,000, Mr. Wood stated. The chambers of commerce in communities throughout the state are acting as clearing houses for information on the plan.

Three persons were admitted to the Orange county hospital at 1:35 a. m. yesterday following a traffic accident on South Main street south of Delhi. The injured are Ernest Randall, 915 Eas: Washington avenue, Santa Ana; Lyle Christianson, 1015 Cypress street, Santa Ana, and Miss Thelma Glick of Santa Barbara. the Santa Ana justice court. A group of defendants were charged with criminal conspiracy, a felony. When the cases came before Justice of the Peace C. E. Morrison, he ruled that the charges amounted to misdemeanors and that therefore his court had no jurisdiction. This meant that the cases would have to be tried in Seal Beach.

A move for change of venue could be made only by the defendants, and so the prosecution was blocked from moving along this line.

## Arrests Recalled

Since July 19, 1931, Sheriff Jackson and his deputies have arrested 63 persons on gambling charges. On July 19, 1931, eight persons were arrested at L. Vida Hot Springs and were fined \$25 each in the Fullerton justice court. On July 24, 1931, two persons were arrested at Santa Ana Gardens and Greenville, two slot machines were confiscated, both defendants pleaded guilty and were given six months suspended sentences in the Huntington Beach justice court.

On July 27, 1931, six persons were arrested and six slot machines confiscated at Balboa. Two defendants were acquitted at trials in the justice court at Costa Mesa and the other four cases were dismissed on motion of the district attorney's office.

On July 5, 1933, Sheriff Jackson's records show, an attempt was made to open a tango parlor on state highway 101, between Santa Ana and Anaheim, but the move was abandoned after deputies told the promoters they would be subject to arrest. The promoters then secured a temporary injunction against the sheriff.

This later was dissolved, and at his suggestion, the board of supervisors passed an ordinance prohibiting operation of tango games in unincorporated areas.

**23 Taken in Raids**

On July 24, 1934, raids at Seal Beach tango parlors resulted in the arrest of 23 persons. All were acquitted in the Seal Beach justice court.

The next day eight persons were arrested at Seal Beach and charged with criminal conspiracy, with the result as outlined above.

On Nov. 10, 1934, two tango parlors were raided at Seal Beach by sheriff's deputies. Ten persons were arrested. All were acquitted by juries in the Seal Beach justice court.

Getting out of the Seal Beach territory, deputies arrested seven persons at Corona Camp, La Habra, on April 7, 1935. All pleaded guilty, were sentenced to serve 10 days in the county jail, and were fined \$100 each, \$90 of which was suspended.

**Chain Letter Raid Here**

On May 20, 1935, a Santa Ana chain letter establishment was raided. Six persons were arrested. Four were released. Two were convicted of criminal conspiracy and were given six months suspended sentences.

Last June 25 a marble machine and slot machine were confiscated at Doheny Park, on Oct. 15 a slot machine was confiscated at Olive on Nov. 17 two slot machines were confiscated on 101 highway between Santa Ana and Anaheim, on Nov. 21 a slot machine was taken at Olinda, on Dec. 10 a slot machine was taken at Midway City, and on Dec. 18, five slot machines were taken at Costa

## REDUCE CHARGES AGAINST DRIVER

Robert Spiess, 19, Barber City, arrested in Long Beach last Tuesday night in possession of an allegedly stolen car, was booked at the county jail at 3:55 a. m. yesterday by Deputy Sheriffs James Workman and James Musick on charges of grand theft. This morning the defendant was taken to the Seal Beach justice court where the charges were reduced to drunk driving. The car was assertedly stolen in Westminster. Clyde Elliott, 35, Costa Mesa, arrested on charges of drunk driving by Highway Patrolman Vernon Barnhill, was booked at the county jail at 6:05 p. m. Tuesday. He was driving his car in an allegedly erratic manner at the time of his arrest.

## GUN CLUB ROW TO BE AIRED

The attitude of the Orange County Water district toward the gun club duck pond problem, and the question of whether the district would be willing to represent the Santa Ana basin in continuing sewage reclamation studies, will be up for discussion at the meeting of the Orange county farm bureau water committee, Jan. 6.

The special meeting has been called in place of the regular December and January meetings, in order to make way for the county farm bureau convention to be held Jan. 20 and 21, Secretary R. D. Flaherty said today.

The water committee also will make a symposium of the sentiment in regard to the following resolution adopted at the recent California farm bureau convention: "That we request the board of directors of the California Farm Bureau Federation on the basis of past and future studies of existing underground water laws and regulations in western states, in cooperation with other interested groups, suggest underground water legislation for California, submit the same to counties for consideration, and in turn to regional conferences, and to later call a general statewide water users conference by Sept. 1, 1936, with the ultimate purpose in mind of developing suitable legislation to submit to the legislature."

Sub-committee appointments for the ensuing year also will be announced at the meeting, Chairman J. A. Murdy, jr., announced.

## HELPER OF VAN METER GUILTY

CHICAGO, Jan. 2 (AP)—The United States circuit court of appeals today upheld the conviction of Attorney Louis Piquett on a charge of harboring Homer Van Meter, late member of the Dillinger gang.

Activities of the State Relief administration were carried on in Orange county during December, 1935, at a cost of \$102,226.26, monthly expense figures released by Auditor Robert Walker revealed today.

A total of 2264 cases were carried on the books as of Dec. 28, a drop of 110 cases from the November figure of 2374.

Direct relief during the month cost the most, being carried on at a cost of \$81,324.19; work relief cost \$1642.80; transient relief, \$1629.63; bonds funds \$5500.16; administration expenses, \$12,129.48.

Stockholm. Prince Carl called a meeting of the Swedish Red Cross to consider the case. Sweden's Red Cross was reported reliably to take the view that the Fascist aerial attacks, directed first at an American hospital at Dessey and then at the Swedish Red Cross unit in the south, were intended for the Red Cross.

## CUPID LOSES COUNTY RACE 272 BACK AT MARRIAGES NOT UP TO 1934

Cupid ran a losing race with himself in Orange county in 1935. He failed to equal his romantic record of 1934.

Cupid was running a desperate race in Orange county today to catch up with himself.

Last year he was to blame for 4092 marriages, for which licenses were issued in the courthouse here by County Clerk J. M. Backs and his staff.

In 1935 the total number of licenses issued was 4070, just 22 less than the record made in 1934. However, Cupid has the consolation that 1934 was a record-breaking year, being surpassed only by the years just before 1928. In 1927 the present so-called three-day law went into effect, requiring a wait of three full days between an application and the granting of a license. Immediately afterward there was a slump in marriage license business.

In 1933 there were 4000 licenses issued here.

The figures for last year, month by month, are as follows: January, 256; February, 246; March, 323; April, 328; May, 302; June, 433; July, 374; August, 405; September, 335; October, 368; November, 360, and December, 340.

## 272 BACK AT WORK AFTER LAYOFF

Work on the Santiago park project was under full steam again today, after 272 workmen returned to their jobs Tuesday following an enforced layoff of two days due to a temporary tie-up of funds.

The Orange transient camp also was gotten under way today, housing 150 single and homeless men. They will be engaged in forest conservation and road-building work. One other such camp is under way, situated in Silverado canyon.

A total of 2744 men were engaged today in Works Progress administration projects throughout the county, both federal and local, County Manager Dan Mulherson announced.

Job still must be found for 562 men. It was explained that daily transfer of cases from State Relief administration rolls to WPA was responsible for this figure.

Certificates of transfer for 336 men have been received at the local WPA offices since Dec. 18. The monthly payroll for Orange county WPA workers approximates \$137,000, it was announced today, figuring the average monthly pay on a basis of \$50.

## Brick Dust

Here and There With  
The Journal's  
Rambling County Editor  
By T. N. (BUICK) GAINES

WILL GALLIENNE, who had charge of the Huntington Beach float in the Rose parade yesterday in Pasadena, said that lots of folks were worrying about the three girls who appeared as part of the decorations.

Jean Tarbox, Margaret Barry and Gwendolyn Swift appeared as bathing girls in the beach scene depicted on the float. Numerous worried residents came to Will, asking if the maidens wouldn't freeze in case of cool weather at the parade. He said that he spent much of his time Monday explaining that nice, warm bathing suits, specially made for cold weather, were prepared for the girls.

From what we've heard, the float was a beauty and the girls looked very nice. They didn't freeze, either.

Investigated the "crime" situation in Seal Beach last night. Went with the expectation of seeing all sorts of sights, especially on New Year's eve.

As far as "crime" was concerned, the town looked like a drunk center on Monday night. Everyone was in good spirits, of course, and many were spending dimes on various games of chance, but lots of 'em had their wives and children along, and the places looked more like the Saturday night meeting of the Amalgamated Brotherhood of Beach Pioneers than like "gambling hells."

We looked and looked for signs of Mayor Elmer Hughes and his horseshoe practicing, which we heard is still going on, as Elmer's bound and determined to win the mayor's prize for the county, but he wasn't in sight anywhere.

Social note: "Doc" Curtis, prominent Rose bowl physician, attended the Rose bowl game at Pasadena yesterday.

Ever since we heard that Doc went to the game, we've been wondering whether he crashed the gate or talked loud and long enough to get tickets. If our memory serves, he was in an embarrassing predicament recently because the ducks were all sold before he got around to ordering his—and also some for other folks.

Been considering starting a contest. The one for guessing—parade me—predicting, when it's going to rain two inches, with a completely furnished, strictly modern umbrella as the prize, seems to be stopping lots of folks.

Our contest, if we could find enough energy to stage it, would be to guess when it isn't going to rain two inches. If the idea's popular, we won't give each winner an umbrella. Fine idea, what?

Walter H. "Slickly" Skidman, Fullerton's popular constable, is suffering, all because he's a constable.

Because, if you were a burglar, whose house would you think of robbing first? The constable's, of course!

That seems to have been the way one burglar figured, anyway, because he sneaked into the Skidman residence and removed articles valued at \$40, including the constable's hat!

Personally, we have our opinion of a burglar who'll steal a constable's hat. Or who'll burglarize his home, while he's out protecting other folks' houses.

However, Slickly's more or less accustomed to being robbed. We remember a fishing trip of his a few fourth of July ago, when he left all his tackle in his car and some heartless soul removed the whole works, down to the smallest fish hook.

Anyway, we hope the hat doesn't fit!

Don White, down at Laguna, tells us that Ted Cook had a corner in, but not on, all the fun dispensed at the sixth annual art's ball there Tuesday evening. The columnist's "Co-Co-Corner" was only one of dozens of attractions at the ball, were told. Comic characters from the funny sheets overran the premises, according to our reports, and a fine time was had by all.

Ralph Essert, one-time Placentia district school superintendent, visited his former home over the week-end. Since leaving Placentia last year, he's been going strong, we were told. He now has a position in Redondo Beach, or some such place.

We saw him talking to Jim Tuffrey, and sneaked up behind 'em to find out what they were discussing. Phooey—politics!

"Scotty" Muir, Placentia's famous deep-sea diver, who gained much fame last year through an unpremeditated dip on a fishing trip, is reported to be preparing his swimming clothes for another flyer.

He's reported by friends to be talking to himself. They claim he keeps mumbling about bonita—which is a fish. So it looks like he'll be swimming before long.

Red river, which separates Oklahoma from Texas on the south, got its name through being fed in part by the waters of Red creek, Mud creek, Muddy Boggy creek and Deep Red run.

#### Easy to Cut -- Easy to Piece

Household Arts by Alice Brooks

Two Materials Make a Striking Quilt

Colonial Pavement

PATTERN 5501

Winter's the time for quilting, and how fast the hours fly when one is engrossed in so profitable an occupation. "Colonial Pavement" takes its inspiration from the rich mosaic pavements of Washington's time. It's an easy quilt to cut and piece, for with most patches the same width, the material can be cut in strips. Straight pieces are always easier to sew to; with this quilt you start at the center. Just two materials are required.

In pattern 5501 you will find the block chart, an illustration for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to The Journal Household Arts department.

We are opposed to the importation of foreign products, especially where there is curtailment of production in this country. In addition we are very much opposed to issuing tax-exempt bonds to pay government expenses," he said. Brushing Up  
Short Stuff

No time like a brand new year to brush the cobwebs out of the old cranium and stack away some new knowledge. If you've heard any of these before, just skip 'em—we have too much fun digging 'em up to leave out any of 'em.

Santa Anita race track has already recorded two dead heats in its brief career of horse racing, but fans at the Arcadia plant likely will never see anything like this: In July, 1913, Terry and Drogheda deadheaded at the Shelbourne Park, Dublin, Ireland. On the first runoff they headheaded again and the third running also resulted in a deadheat. Owners decided things were even and split the purse.

The expression "dark horse," now that we're on the subject of horses, originated in Tennessee. Sam Flynn, horse trader, had a nag named Dusky Pete entered in a race and he wasn't figured to have a chance. Dusky Pete won and when those not at the track asked about the winner they were told that it was "Sam Flynn's dark horse." The title sticks to this day.

"Curling" is not only what your sister has done to her hair. It's a game. They play it in Canada where it is a great favorite, we're told. Historians trace it back to the dim days of Scandinavian history and later in Scotland where it was called "kuting." It is simply bowling on ice and is much like shuffleboards since discs, not balls, were used.

The Persians played chess in 600 A. D.—and we wouldn't be surprised if some of them were still playing the darn stuff.

When you hear the name of Sullivan and the word "boxing" with it, you immediately think of John L. don't you? We did, too, until we found that there were four other good Sullivans in the boxing world. They are Brooklyn T., Dave, Mike T. and Steve. All but Dave won a title.

The English who do not understand—and therefore do not like—baseball, are responsible for the existence of the sport. The game gradually grew out of a combination of English cricket and English rounders; the English claim it is a direct steal from rounders. Rounders calls for the use of three bases, but when American boys started it they used no base at all and later started using a single base, which indicates baseball's inspiration very probably was cricket.

The waters off Santa Catalina Island are credited with giving up four fish of recognized world record-breaking size: California black sea and white sea bass, albacore (66 lbs., 4 oz.) and channel bass (75 lbs.). Record for black sea bass was 515 pounds, for white sea bass, 60 pounds.

Short stuff: New York reports Joe Humphreys, the grand old ancestor, is no better. Texas says the Associated Press, sent 2000 fans to the Rose Bowl game on nine special trains of 14 cars each. Wonder how many of them are thumbing their way back today?

Jack Dempsey's announcement that he is looking for a new "white hope" didn't sit very well with Champion Jim Braddock. Jimmy isn't sure a "white hope" is needed. Who said anything about discrimination in passing out Rose Bowl tickets? Ex-President Herbert Hoover asked for 10 more and was turned down cold. National league clubs are flirting with the idea of transporting their teams by air. Big planes of the clipper type would be used. President Ford Frick is for it. We can't see any saving, except time.

Abe Feldman may be giving a shot at Joe Louis in the spring, and scribes say that Feldman is capable of tossing a few punches effectively at Mr. Louis. Madison Square garden is Frankie Kliek's lucky spot. The Californian has won all his seven fights there. Champ Braddock celebrated New Year's eve at New York's Plaza, \$15 a throw. Mike Jacobs says there will be no fight in Miami this winter. It's a bit too near Havana.

Charles Zimny, legless swimmer, holds the endurance swim record of 106 hours.

## CASEY COLUMBO CONFIDENT OF DEFEATING LOPEZ

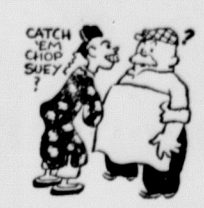

Fresh from a straight fall triumph over Kiman Kudo and undefeated since he started wrestling in this section six months ago, Casey Columbo, the spectacular flying tackle expert and one of wrestling's greatest defensive stars, gets his first crack at the world championship Monday night at the Orange County Athletic club when he meets the recognized champion, Vincent Lopez, in a best two out of three fall, one hour time limit match.

CHINA'S ONE-MAN team failed to win a point at the 1932 Olympics, but the Chinese will be fully represented at Berlin in 1936. China previously concentrated its athletic ambitions on the Far Eastern Olympics. Now, however, Japan's insistence that Manchoukio be included in the next Oriental games caused China's withdrawal from them.

## REDS HALTER UNDEFEATED MUSTANGS

Aerial Circus Halted By Indians' Defense; Paulman Scores

By PAUL ZIMMERMAN  
PASADENA, Jan. 2. (AP)—Stanford led the West a long way out of the football wilderness today.

In a game the Pacific coast hoped would herald its return to high international ranking in 1936 Coach Claude (Tiny) Thornhill's Mustangs to halt the hitherto undefeated Southern Methodist Mustangs, 7 to 0.

The big red team came back after two distressing defeats in the last two years of Rose tournament play to vindicate itself.

One determined thrust late in the first period turned the trick but in the long run a valuable lesson on pass defense learned at a costly price on the Rose Bowl sod a year ago made the lone touchdown stand up.

For it was the fierce rushing of the pass throwers of Coach Matty Bell's famed aerial circus that figured so largely in the upset which surprised a heavy share of the 85,000 persons who crammed into the historic Rose Bowl.

Fittingly enough, it was a pass that paved the way for Stanford's touchdown. It was a 22-yard throw, Bill Paulman to stocky Jimmy Coffis, that put the ball in scoring territory and the Indians took full advantage.

From the 19-yard line where Coffis was tackled as he grabbed the throw Bobby Grayson and Bobby Hamilton packed the pigskin to the 2-yard stripe and Paulman slid off tackle to score. James (Monk) Moscrip promptly and accurately kicked the point.

Mustangs Held  
While Stanford never could quite muster up the strength to cross the Mustangs' goal thereafter, the Indians quite effectively prevented the champions of the Southwest from doing much about the situation either.

Obviously the great aerial display of Alabama here a year ago kept ranking in the hearts of the Indians, for they viciously rushed the pitching artists of S. M. U. all day long and allowed only a few of the throws to be completed.

75-Yard Drive  
The one last play in the second period and Southern Methodist took full advantage of it. Starting on their own 25, Coach Bell's players, led by the brilliant Bobby Wilson, drove 75 yards only to be disappointed.

The crowning feat of this parade was a forward pass, the end of which was a 75-yard drive. The end in turn relayed the ball to Bob Finley who finally was pulled down on the 5-yard line. On the next play a fumble gave the ball to Stanford.

Wilson Cuts Loose  
Southern Methodist threatened first shortly after game opened when Wilson took Paulman's first punt and reversed his field to pack the ball back 28 yards to the 27. He almost got away to score on this amazing display of broken field running.

The Texans, however, could not make good on their chance. The first play lost three yards and then Coffis intercepted Wilson's initial pass of the game to stop the advance.

WRESTLING  
By the Associated Press  
PITTSFIELD, Mass.—Danno O'Mahoney, 222, Ireland, defeated Billy Bartush, 218, Chicago, two straight falls.

CINCINNATI—Everett Marshall, 218, La Junta, Colo., threw Chief Sunoco, 320, North Carolina, 23-10.

Columbo believes he has what it takes to crush the Mexican who won the international wrestling tournament from 56 leading heavyweights and the California Athletic commission's world title recognition. "Flying tackles will ruin Lopez," says Columbo "and I know it."

## Ends Won for Stanford Team, Says Coach MOSCRIPT AND TOPPING ARE PRAISED

Odd News At Rose Bowl Clash; Shuford Hangs Head After Fumble

PASADENA, Jan. 2. (AP)—Alvin (Bo) McMillan, who ought to know, attributed Stanford's 7 to 0 victory over Southern Methodist to its brilliant ends—Monk Moscrip and Keith Topping.

McMillan, football coach at Indiana, ex-All-America quarterback and a life-long friend of Coach Matty Bell of the Texas team, declared:

"Stanford's ends, with a fierce style of play, were the deciding factors in the game. S. M. U. had the receivers for its passes, but it couldn't get any passes off."

## VICTORY FOR EAST NEARS RECORD

SAN FRANCISCO, Jan. 2. (AP)—In football records of the New Year stood today a victory of East over West, with a 19 to 3 score to commemorate the eleventh annual clash here between collegiate stars under the banner of charity.

Only once before has the New Year's day game, played for the benefit of the Shriners' crippled children's hospital, been so overwhelmingly decisive. The 1928 encounter, won by eastern stars, ended 20 to 0.

On Even Terms  
For three periods the two 1936 teams battled on even terms, the east missing two field goal tries and the west failing on one attempt to kick its way into the scoring column.

Russ Letlow, University of San Francisco guard, failed on a place kicking effort from the 21-yard line in the second period. Shortly after Dick Heekin, Ohio State halfback, missed from the 17-yard line. In the third quarter, Dick Smith, Minnesota tackle, tried to boot the ball through from the 35-yard marker but like his eastern teammate, was short in the attempt.

Kick Field Goal  
Just after the fourth period opened, the west broke the deadlock with a field goal. John Sylvester, Rice institute end, teed the leather through from the 10-yard line.

The successful place kick touched off the eastern powder keg and within the space of a few minutes, during the late part of the contest, the warriors from the east raced all over the field, intercepting two passes and recovering one fumble and converting each "break" into a touchdown.

Ray Hapes, Ex-Don Griddler, Shines in Orange Bowl

Quarterback Ray Hapes, the Garden Grove boy and ex-Santa Ana Junior college star, was the main cog in two scoring drives, as his Mississippi eleven lost a thrilling 19-20 struggle to Catholic university in the Orange bowl at Miami, Fla., yesterday.

More than 10,000 fans saw the grid game, enlivened by Mississippi's gallant comeback in the final quarter in pushing across two touchdowns. Hapes did not make the scores, but his substantial gains placed Peters, Bernard and Poole in position.

## 'No Alibis,' Says Mustang Coach; Tiny Lauds His Ends

PASADENA, Jan. 2. (AP)—Here's what the rival coaches had to say about Stanford's 7-to-0 defeat of Southern Methodist university in the Rose Bowl:

"That quick kick by Bill Paulman in the first quarter was the turning point of the game," said Claude (Tiny) Thornhill, coach of Stanford. "That kick and our pass defense and the fine end play in rushing S. M. U. passers turned the trick. I don't know when I've seen greater end play."

"We didn't like to lose," said Coach Madison (Matty) Bell of the Mustangs, "but we just weren't clicking. We don't have an alibi in the world. It was just not our day, and the best team on the field won the ball game."

Stanford's Thornhill was high in praise for Bobby Wilson, S. M. U.'s all-American backfield star.

"He's everything they've said and more," he declared.

Coach Bell was equally enthusiastic about the Indians' Bobby Grayson.

"He's a wizard, but we knew that before we came out here."

Bell recalled the fumble that thwarted the Ponies' touchdown early in the game.

"I hate to say 'if,' but if we hadn't fumbled on the 5-yard line I believe we would have scored and played a better brand of offensive football after that."

AIR ATTACK IS HELP TO S. C.

HONOLULU, Jan. 2. (AP)—Crushing victories over two Hawaiian opponents were on the record of University of California's football team today following a holiday invasion of the islands.

The Trojans buried University of Hawaii beneath an avalanche of six touchdowns yesterday for a final score of 38-6. Three of the scores resulted from passes, and the others came from powerful line smashing attacks which shattered the islanders' defense.

Hawaii scored near the end of the game on a series of passes.

## DEATH TAKES RYDER CUP DONOR

LONDON, Jan. 2. (AP)—Samuel Ryder, 77, donor of the Ryder golf cup, for competition between professionals of the United States and England, died suddenly today in a London hotel.

Ryder, who went to the hotel for the Christmas holidays, succumbed to pneumonia.

He presented his trophy at St. Albans, England, in 1926 for competition between teams of American and British professional golfers.

The trophy was first competed for in 1927. Two years later the conditions of the deed of the gift were altered, confining the British team to British-born professionals resident in Great Britain, and the American team to American-born professionals residing in the United States in the year of the current match.

Ryder was one of the greatest patrons of professional golf. He was credited with helping to develop the Whitehouse brothers and was a personal friend of Abe Mitchell, whom he appointed his private professional at a salary of £1000 (\$5000) a year.

Angered in 1931 by the charge that Ryder cup golfers were a collection of has-beens, Ryder offered to bet £1000 that the British would beat the Americans. However, the Americans won that year.

Early golf balls were made of feathers, tightly stuffed into a leather cover.

## MAY CONDUCT EVENT NEXT JANUARY

More Time Required To Finance Affair, Says Wright of Club

Santa Ana Country club's proposed \$1000 medal play golf tournament, planned for the Newport boulevard course Jan. 13, was definitely called off today for financial reasons, it was announced by Harold Wright, committee head.

The Professional Golfers' association, to which most of the country's leading pros belong, was reported by Horton Smith, its president, to have agreed to enter members in the tournament provided prize money for the 18-hole \$1000 event include \$10 entry fees.

Insufficient Time

"It would have required an extra \$1000 to meet expenses and the P. G. A.'s demands, and the committee felt there was insufficient time to complete adequate financial arrangements," Mr. Wright explained.

Mr. Wright's committee met with Ward Akeley, Santa Ana Country club manager, Tuesday noon, and although no official action was taken at that time, it was understood the committee expressed an unwillingness to include all of the proposed \$10 entry fees in the prize money.

Chamber of Commerce members of Santa Ana had voted to cooperate with the country club in conducting the tourney, but would not discuss underwriting the affair until complete details were known from the country club committee, President W. H. Spurgeon, Jr., said.

The country's leading pros would have been available for the Santa Ana event, since they are now in the Southland for the Southern California and Pasadena open and the near-future Los Angeles open events.

DR. ROSS ILL IN L. A. HOSPITAL

Dr. C. C. Ross, past president of the Santa Ana Country club, is under observation at the Santa Fe hospital, Los Angeles, where he was taken yesterday following a recurrence of kidney trouble.

Friends of the golf enthusiast, who captained the Santa Ana team that won Southern California honors last year and reached the '35 playoffs, were interested to know that Dr. Ross' present condition is not considered serious. He will be confined in Los Angeles only a few days, reports indicate.

## FIGHT ARENA IS DARK TONIGHT

With Orange county's amateur boxing's 1936 debut at the Orange County Athletic club definitely set for Friday, Jan. 10, the arena will be dark tonight.

Promoter Sampson is switching his weekly fight night from Thursday until Friday, holding the belief that better programs can be arranged as the result, inasmuch as three other clubs are running on Thursday night, including Jeffries' Barn, Pasadena and Culver City.

## TROJAN FIVE TO FACE OREGON

LOS ANGELES, Jan. 2. (AP)—Southern California, defending conference champion, meets Oregon state, the team it defeated in the playoff last year, in a basketball game at the Olympic auditorium tonight.

## SANTA MARGARITA NEXT ON CARD AT SANTA ANITA

The second winter racing season at Santa Anita park has opened with even more brilliance and interest than marked the inaugural last season. A record, colorful crowd of 45,000 was on hand New Year's day and turf enthusiasts from all parts of the country are putting in appearance each day, now that the holiday season is over.

The Santa Margarita, a seven-furlong dash with \$2500 added, is to provide the feature Saturday. Ted Clark, the sensational former setting plater, took the honors in the stake season and may come along in his training to be a starter.

The following Saturday the San Pasqual at six furlongs will be on the card.

Nominations for the \$25,000 Santa Anita derby, to be run on Feb. 15, closed yesterday and will bring to the post one of the finest fields of 3-year-olds ever to compete in California.

# CHANGES FOR WORLD SEEN IN 1936

By RICHARD HIPPELHEUSER

NEW YORK, Jan. 2. (AP)—The world, as it enters 1936, is filled with innumerable factors for far-reaching change, emphasized in foreign affairs by three major zones of strife and danger:

1. The Italo-Ethiopian war, affecting much more than the building of a Fascist Italian empire in East Africa.

2. The European situation, independently of the East African conflict, as it concerns such portentous elements of change as German re-armament and demand for colonies, the possible return of the Hapsburgs to the Austrian throne and the general maneuvering for alliances reminiscent of the pre-World war era.

### The Far East

3. The Far East, in which the Japanese encroachment in North China is overshadowed by the ominous tenseness prevailing between Japan and its puppet state of Manchoukuo on the one side, and Russia and the outer Mongolian people's republic on the other.

The failure of Mussolini's legions to achieve any outstanding success at arms in Ethiopia and the increasing effect of the League's sanctions campaign against the Fascists, in the opinion of many observers, intensifies, rather than lessens, the danger of a spread of the East African conflict to Europe.

Il Duce enters the new year in a less advantageous bargaining position than at any time since his armies invaded the empire of Haile Selassie early in October.

### Hitler's Program

Just as Il Duce desires colonies, so does Adolf Hitler. This, coupled with the vast program of militarization in the Nazi third reich, gives the diplomats of France and Britain something else to worry over. If Germany returns to Geneva and if it enters into any pacts guaranteeing the status quo of Europe, it seems up to the British to persuade Hitler.

Soviet Russia also professes great fears in the Far East. It looks with distrust on the combination of Japan and Manchoukuo and is building a common defense with strategically placed outer Mongolia.

Observers, recalling lesser crises which have precipitated widespread war, can see only dark clouds over Africa, Europe and Asia.

### National Affairs

As consequential as are all these factors to the powers of the world, the dominant interest in the American scene in 1936 is the Presidential campaign.

The New Deal, with its changes in the relationship of government to society, comes before the nation with one principal issue: Shall the New Deal be continued? The forces in power have their candidate, Franklin Delano Roosevelt; they have their platform, the New Deal.

### Here's Opposition

The oppositionists—Republicans, dissatisfied Democrats, and forces of industry and business acting more or less independently against the administration—still must obtain both.

Will the candidate be one of those talked of today—Borah, Landon, Knox, Vandenberg—or a "dark horse" as in 1920? or will it again be Herbert Hoover?

The New Deal is ready for the battle, but it may be forced to make changes before the election. The supreme court, early in the new year, will decide on the constitutionality of some of the principal New Deal measures: the Agricultural Adjustment act, with its processing tax, the Tennessee Valley Authority, and the Cotton Control act.

# HALT ORANGE STAINING SOON

Secretary of Agriculture Henry A. Wallace recently issued notice to citrus growers, handlers and shippers that on and after Sept. 1, 1936, staining of interstate shipment of oranges will be held in violation of the food and drugs act.

The application of yellow and orange coal-tar dyes to the peel of oranges had its inception in 1934, according to Farm Advisor Harold E. Wahlberg. On July 16, 1934, the department declared that the use of artificial color must be disclosed to the consumer by a conspicuous statement on each orange, and that concealment of inferiority or damage of the fruit by the added color would be a violation of the food and drugs act regardless of color declaration.

The department was not able to complete its investigations as to the concealment of inferiority during the fruit season ending in the spring of 1935. In the meantime the installation of elaborate color processing machinery has been extensive, and the staining of oranges by added color has become almost universal in certain producing sections, said Mr. Wahlberg.

# F. D. R. EXPECTED TO ASK CONGRESS FOR MORE RELIEF CASH

## 'DOLE' MONEY ALLOCATION IS SOUGHT

Chief Executive Will Deliver Message At Joint Night Session

WASHINGTON, Jan. 2. (AP)—Continuance of the existing work relief program throughout 1936 was predicted by authoritative sources today as friends and critics alike awaited to see what President Roosevelt would propose in his annual message to congress at a joint session tomorrow night.

Just how much, if any, additional funds he would ask for the Works Progress administration, the mainstay of the program inaugurated to provide jobs for 3,500,000 able-bodied needy, remained a secret.

**Billions Left Over**  
Nevertheless it was known that any relief appropriation asked would be much smaller than the \$4,860,000,000 requested and received last year. Some of this money is expected to be left over when the present fiscal year ends next June 30—estimates of the "left over" vary from \$1,000,000,000 to \$2,000,000,000.

Thus there will be some funds with which to continue work relief. The President also has made known that he will ask something less than \$500,000,000 for heavy engineering projects, mostly to continue those already started.

**More Dole Money**  
Despite the recent "liquidation" of the Federal Emergency Relief administration, it has been taken for granted in official quarters that the federal government will be forced to allot some money for the "dole."

Officials argued that the social security system ultimately will take care of most of the one million "unemployable" families and single persons now returned to the care of state and communities, but it will not become fully operative for a year.

## HARGROVE WILL OPPOSE KUCHEL IN RECALL RACE

Alva Hargrove, defeated candidate for justice of the peace in the Anaheim township and leader in the movement for recall of Justice of the Peace Charles Kuchel, has secured nomination papers to become a candidate against Judge Kuchel in the Feb. 7 recall election. Mr. Hargrove secured the papers from County Clerk J. M. Backs Tuesday afternoon, shortly after the board of supervisors had set Feb. 7 as the date for the election.

The election date was set after Mr. Backs reported to the board that recall petitions contained 1,268 names, or more than the 1246 required to justify calling the election.

The petitions charged Judge Kuchel with incompetency.

## LIFE IN 1935

### 12. In 1936 There'll Be the Election

By HERBERT YAHRAES  
Associated Press Staff Writer

If John Smith wants to be can foretell in a general way some of the developments likely to touch his life as 1936 rolls along.

Heading his list may well be the presidential campaign for he will expect to hear "It's an election year" offered over and over again as a reason for developments not only in politics but also in business, although economists find little to support a conclusion that a national campaign inevitably disturbs the world of trade.

He may be convinced that the outcome will affect him personally, especially if the constitution becomes a paramount issue or the campaign centers on candidates with diametrically opposed views as to how, if at all, the government should aid the unemployed, regulate business, control farm production.

**Economic Trends**  
Because business developments affect his pocketbook, he may venture into prophecy on the basis of economic trends as the year closes, noting that more of his acquaintances are building homes, with government aid; that one of the factories down by the tracks is improving its plant; that the stores seem more crowded than usual. He may take into consideration, too, the complaints he hears about taxes, and his wife's remark that food bills are higher.

Setting down what may happen in 1936, John Smith will note the probability of important developments abroad, especially in the Mussolini-Ethiopia-League of Nations situation.

Perhaps he will find the factors too tangled to permit a definite forecast but he will see the possibility of the African war's continuing until either Italy or Ethiopia is ready to call quits; of the league's forcing its conclusion, whether or not the result is satisfactory to all; of the conflict's spreading to the Mediterranean, or beyond.

**'Warm Spots'**  
He may jot down the Far East, where Japan is on the march; Germany, with its religious, racial and economic troubles and its rearmament program; Austria, where the talk of restoring the monarchy continues; and Cuba, which has a hard time sticking to a president, as warm spots that might bring home hot.

He will expect to see payloads—passengers as well as cargo—being flown on regular schedule from California to the Philippines, and possibly to China. And he may set it down as more than a guess that important steps toward establishing regular trans-Atlantic air schedules will be taken during the year.

**Supreme Court Decisions**  
Definitely promised are tests to determine how far the laboratories have come with television but he will not expect to have a set in his home.

He may include among his predictions the probabilities that the supreme court will conclude its judgment on essential "New Deal" measures, with possibly far-reaching effects on him, whether he works in factory, in office or on the farm; that "balancing the budget" will be a much-discussed topic in political and business circles; that congress will wrestle with another demand to pay the bonus.

And he may prophesy the legal termination after more than three years, of "the Lindbergh case."

**Last of a Series**  
At least two years work in clothing clubs can enroll in home furnishing. A pot-luck luncheon will be a feature of the day.

Whatever else 1936 holds for John Smith, he is certain to hear much of the fact that it is "election year." Apparently certain, too, are new developments in the Italo-Ethiopian conflict, new advances in the fields of aviation and science, new trends in industrial activity.

## PEACE POLICY CHANGE IS SOUGHT

Senator Urges Wider Presidential Power In Neutrality Act

WASHINGTON, Jan. 2. (AP)—An American neutrality policy founded on the "duty" of preserving peace rather than on protection of "rights" of nations was envisioned today by Senator Elbert D. Thomas (D., Utah) in urging wide presidential leeway in its administration.

Thomas' advocacy of an act giving the President greater discretion emphasized the force of the drive toward this end led by the state department and legislative leaders. Other lawmakers, however, have said congress should clamp even more mandatory restrictions upon the executive.

The present act, which expires Feb. 29, requires the President to embargo arms shipments to belligerents when war breaks out. The President has no choice about it.

Recognizing the "worthy objective" of the law, Senator Thomas, a foreign relations committee member, said "the application of absolute neutrality is utterly impossible."

He commended the passage of the present act, however, as "definitely changing" the former neutrality theory of the United States "in many ways."

## AVOCADO POST FOR NEWMAN

C. V. Newman of Tustin has been reelected to represent the avocado growers of this district on the board of directors of the Calavo Growers of California.

Local district growers held their annual meeting this week in Santa Ana. Mr. Newman is president of the association, also.

Reporting on the record of 1935 avocado crop, Manager George B. Hodgkin of the growers' association declared that the crop netted growers double the per acre returns of the previous year. Newspaper advertising grower cooperation and a thoroughly synchronized marketing program made this possible. A most overnight knowledge of, and demand for, the fruit was created in the East, and Midwest markets.

Prices were maintained through the carefully handled marketing program, while volume doubled and tripled itself. Costs of packing, field operations, research, general office costs including sales, accounting and branch sales offices, amounted to only 25.4 cents per packed box. Advertising was an additional investment of 9.1 cents per box. The new demand created by this advertising and by the general marketing plan is now making it possible to ship a much larger percentage of the crop to markets outside of California.

## Supreme Court May Chart Course of 74th Congress

When Vice President Garner (center) raps the gavel in the senate Jan. 2, and Speaker Byrns simultaneously calls the house to order, the seventh-fourth congress will be off to its second session. Washington observers are predicting that the course of the session will be determined largely by the U. S. supreme court (whose new "home" is shown above) in its rulings on constitutionality of much New Deal legislation. A joint session of the seventy-fourth congress is shown below.

By ALEXANDER R. GEORGE

WASHINGTON, Jan. 2.—Washington's perennial big show on Capitol Hill will open at noon Friday, with mystery shrouding the prospective performance by a cast of 94 senators and 432 representatives.

The senate seats formerly occupied by Huey Long, the master showman, and Senator Schall, another "New Deal" foe, will be vacant as will the seats of three representatives.

To a greater extent than any national legislature within the memory of observers here and perhaps in congressional history, 74th congress will convene for its second session with widespread uncertainty as to what its major mission will prove to be.

Not until the verdicts of the U. S. supreme court on measures touching the economic interests of millions of American citizens have been handed down can a legislative "must" program be framed.

**AAA Decision Due**  
Although President Roosevelt, who has promised a decreasing deficit, can map for the congress a budgetary blueprint or suggest revisions in existing laws here and there, the legislative schedule to deal with the embattled AAA and other prime elements of the "New Deal" must await the action of the high court.

The momentous decision on the validity of AAA, involving processing taxes which provide hundreds of millions of dollars to farmers, crop control, may be returned soon after the court reconvenes on Jan. 6 following its abbreviated Christmas recess. Should the court find AAA unconstitutional, congress would be plunged immediately into a struggle to evolve a new farm relief program.

Decisions affecting the validity of the public utility, the Tennessee Valley Authority and the Guffey coal control measures also are expected this winter. The social security law and the Wagner labor disputes act possibly may be passed upon by the court before these measures are returned to congress adjourns. Should any of these be declared invalid, efforts may be made to re-enact them in constitutional form.

**Bonus Action Seen**  
Early action is expected in congress on the soldiers bonus, affecting millions of World war veterans and their families directly as cash beneficiaries and millions of federal government taxpayers indirectly. Advocates of immediate payment of the bonus express confidence in victory at this session even if the President vetoes the bill.

Fireworks are in prospect along other congressional lines. Investigation of munition makers' activities, with J. P. Morgan featured as the chief witness before a senate committee and inquiries into alleged lobbying enterprises by so-called "big business" groups are slated for resumption.

Among the latter may be the American Liberty league and some business organizations which may be accused by New Deal congressmen of going beyond their normal scope in political activities hostile to the Roosevelt administration.

An important job will be the drafting of a neutrality act to take the place of the emergency measure which was enacted last summer and expires on Feb. 26. More or less related to the peace problem will be national defense measures with the prospect of a

## LINDY SEEKS HOUSE IN ENGLAND

Movements Still Held Secret; Family In Liverpool Hotel

LIVERPOOL, Jan. 2. (AP)—Charles A. Lindbergh scouted England today for a home to bring fulfillment of his self-expressed desire for "quiet and rest in this country."

Because of the very secrecy imposed on the movements of the flying colonel, Anne and 3-year-old Jon, many and varied rumors arose as to their plans for the future.

### Many Rumors

One report had it that their representative, W. H. Gregory of Morgan, Grenfell & company, had gone to London to negotiate for a house in Surrey or London, with the Lindberghs awaiting their return here before deciding their plans definitely.

Other rumors insisted the family still intended to go to the Llandaff, Wales, home of J. Lievellyn Morgan, father of Aubrey Niel Morgan, brother-in-law of Mrs. Lindbergh.

The Lindberghs, however, who arrived here Tuesday aboard the S. S. American Importer after a 10-day voyage from New York and established themselves unexpectedly in Liverpool's Adelphi hotel, still remained in seclusion in their hotel suite.

Colonel Lindbergh, who said in a short statement issued by Gregory yesterday, "I am very pleased at the consideration shown myself and family and I am looking forward to quiet and rest in this country," found his wishes already fulfilled in part, even with his plans still apparently indefinite.

The three Lindberghs remained undisturbed in their part of the hotel, from which all other persons—even other hotel guests—were excluded.

## The Thinkers

Wherein women of the community express their views on topics of particular interest to women.

Do you think the women of the United States should be willing to give up their wedding rings in case of the country's need, as the women in Italy have done?

Miss Susan Cloyes: I think that women as well as men should sacrifice for their country. Men are prepared to give up their lives. Surely a woman's wedding ring is a very small thing in comparison with her husband's life.

Mrs. Amos Cox: I think when it comes to the protection of the United States, we should be prepared and willing to make almost any sacrifice.

Mr. and Mrs. J. D. Balfour of 749 La Vista drive, Laguna, entertained with an amusing and strikingly original New Year's eve party. Guests were instructed before the party to call for "other men's wives." They met at the Brouler cafe and from there whizzed about Laguna on a scavenger hunt ending at the Balfour home. James Gill and Mrs. Al Hastie won the hunt, bringing with them an autograph from Ted Cook, five red bricks, a Sears-Robinson catalog, Chief Abe Johnson's autograph, and several other "amusing yet difficult bits," said the winners.

Following the scavenger hunt, open-house was held by the host and hostess. Those who attended the scavenger hunt and party were Mr. and Mrs. Al Hastie, Mr. and Mrs. James Gill, Mr. and Mrs. Frank Kirby, Mr. and Mrs. Chester Maag, Mr. and Mrs. Vincent King, Mr. and Mrs. Harry Bowles, and Mr. and Mrs. R. G. MacDonald.

## HIGH COURAGE by Jeanne Bowman.

SYNOPSIS: Dramatically, Ansel Kellogg, Anne Farnsworth's oldest and best friend, has returned from South America and taken charge of Anne's trial. Anne is accused of murdering her foster uncle, Lee Farnsworth. With the help of John Neuman, whom Anne loves, Kellogg has found and produced witnesses who materially alter the trend of events. Now he is asking a chinook to tell where he was at the time of the shooting.

### Chapter 41 THE NET TIGHTENS

"My boat, she behind and at right of that girl's," the Indian told Kellogg.

"What happened there at the time?"

"Lady, she climb up on boat like she set to trap. Somebody say, 'loud, Anne.' She turn 'round. Shot he sound. She think boat not dip on wave, she shot. Die."

Anne sat horrified; then her surprise was correct. By the grace of a wave which had rolled her boat, Lee Farnsworth and not she, was dead. And Crocker, Rob Crocker to whom she entrusted her future, had bought cartridges for the weapon which had fired the shot.

"White Deer, did you see any of the occupants in other boats close to Miss Farnsworth?"

"The Indian's lip set in a stubborn line.

"Come on, Charlie, you wouldn't have this girl hanged because you're afraid to talk?"

"Nika, 'fraid," the man protested. "Don't know sure. Only know girl not shoot."

"Well, tell us what some of the men nearby looked like."

"All dress same. All wear slickers, big hats. One closest to her wear fancy sweater under coat. Red."

Judge Kellogg reached for a bundle handed him. He unrolled it, disclosed a turtle neck sweater of scarlet with interwoven lines of purple and blue. After introducing it as an exhibit, he turned to the chinook.

"Could this be it?"

"Yes, Pretty." The black eyes glittered with enjoyment of the gay color.

"Are you sure?"

"The bronze brow wrinkled. "No sure," he compromised. "Just think. White Deer wish to be right. White Deer American, wrong no man."

"That's a fine idea, Charlie, too bad others haven't the same feeling. You're excused."

"Hale Carson, next, if you please, Mr. Bailiff."

Anne, watching Farley and Rob Crocker, saw them exchange startled glances as the sturdy cannery man entered and was sworn in as a witness.

"Mr. Carson, what are your duties?"

"General caretaker of the Farnsworth cannery."

"Where were you the night of August 3rd?"

"Hanging around the cannery. There was trouble brewing among the fishermen and we figured I'd better keep an eye on the buildings."

"Did you see any of your employers at the time?"

"Sure, that is, the young ones, Mr. Crocker and Mr. Farley. Crocker was there all evening."

Anne sighed with relief. Then the murderer couldn't have been so flagrantly misplaced.

"But Farley took off in a giletter soon after the fishermen left."

"Do you remember how Farley was dressed at the time?"

"Yeh, it was kinda chilly, so I loan

### ORANGE COUNTY GAMBLING

IN ANOTHER column of The Journal today will be found a record of what has been done by Sheriff Logan Jackson to stop gambling in Orange county. It is not a very encouraging showing but apparently it is no fault of the sheriff. A long list of cases in which defendants have been acquitted in justice court or the cases dismissed on the motion of the district attorney, indicates the sheriff's problem is a difficult one, under the California law.

Inability of the sheriff or the district attorney to try the cases outside the township in which the offense occurs, does tie their hands as long as the sentiment of local jurors favors the gamblers. In unincorporated areas the sheriff's office has been able to keep the gamblers out. In the incorporated sections, it is another matter.

Because gambling at Seal Beach recently has been aired again in The Journal, we asked Sheriff Jackson to tell us exactly what his office had done to stop it there and elsewhere in the county. His record in today's paper shows what success he has had.

INCIDENTALLY, Sheriff Jackson says his statement to The Journal the other day about Seal Beach activities was misinterpreted. He was criticized because he said he knew nothing about gambling in Seal Beach. He insists he meant nothing of the kind. He had reference to the specific case The Journal described in a special dispatch from Los Angeles in which it was said "big shot" gamblers had moved to Seal Beach and opened up a "sneak race horse" wire in the rear of a Seal Beach cafe.

"It would be foolish indeed for me to say I knew nothing of asserted gambling in Seal Beach," said Sheriff Jackson. "I had reference to the telegram which a Journal reporter read to me over the telephone. Of course I know of the reports of gambling there, but did not know anything about the race horse wire. The way things are tied up in Seal Beach it is almost impossible to make a successful raid and if one were made it is next to impossible to obtain a conviction there."

With that construction put on the sheriff's statement, it is evident The Journal was wrong when it said the sheriff was making an insincere statement concerning his knowledge of gambling reports emanating from Seal Beach. It appears he really didn't know about the race horse wire, and doesn't now.

BUT The Journal is not wrong in insisting that this is a problem which challenges the attention of the moral element of Orange county which is greatly in the majority. Furthermore it challenges the attention of the state of California. What good would it do to clean up Orange county and have gambling games being played openly, brazenly in Los Angeles county—in adjoining beach towns?

Visitors to Long Beach who walk down to the pier to hear the band concerts run into the games which occupy prominent corners. A man and his family who knew nothing about gambling games as permitted in California went to Long Beach not long ago and during the afternoon dropped into what they thought was a lunch counter. They waited for the waiter. When he came he had tango paddles instead of pancakes to sell. Funny maybe, but rather a serious indictment of our standard of living.

Sheriff Jackson and every other sheriff in the state need help. They need a gambling law with teeth in it. Then there won't be any room for excuses or half-way enforcement of this particular feature of the penal code.

### WHAT LIES AHEAD?

EVERY time we think of it, this commercial air service across the Pacific seems to us more important. In its early stages, it appeared to be just a stunt. Now, it looks as if it had possibilities for changing a great many things.

First: The Pacific coast has become America's front door. Much heavier tonnage moves to and from the west coast than the east. The fact that our ocean gets the first real flying service is significant.

Second: What is going to happen to trans-Pacific steamship lines if speedy planes get the cream of the passenger traffic. Land planes get a generous slice of the deluxe traffic the railroads once carried, and the roads are not happy about it.

Third: We have always thought of the Orient as far away. Now it's only a very few days, less time than it once took to go from the west to New York by fast train. What effect is that going to have on Japan and China—and on us? It will bring us closer physically; will it bring us closer mentally and philosophically?

We are not saying we know the answers to any of these possibilities we have suggested. And maybe we're all wrong—exaggerating the effect of Pacific air service. Of course, no one can correctly estimate the effect of any new departure from the normal state of affairs. But it seems reasonable to suppose we are on the eve of great changes—and that our own west will benefit.

### THE KIDNAPING FEVER

THERE seems to be a lot of useless jittering these days about kidnaping. Anybody who has saved up a few thousands and has a spoiled child around the house can upset the whole countryside by expressing a fear about kidnapers. They work themselves up into such a frenzy that they not only think kidnaping, dream kidnaping but actually imagine kidnaping.

We know of a man in another state who had a son he would have given a good deal to have rid himself of. He was a worthless sort. But that proud father kept him in constant turmoil for fear the son would be kidnaped and he would have to produce some ransom money to keep the family name in the social register.

O. O. McIntyre

Every tobaccoist in the Fifth and Park avenue areas keeps numerous brands of plug and scrap tobacco on hand.

It is never displayed and its users are even more secretive. Some of the most immaculate dandies have been cheevers of the weed. Chauncey Depew was wont to slip a nip of fine cut in his jaw when preparing some of his famous speeches. Even Harry Lehr liked a bite of raw Burley twist now and then.

Among the old time theatrical men Tom Heath, of McIntyre and Heath, Jack Norworth and Hay Ward are unashamed cheevers. And Fred Allen, of a later generation, often goes on long, lone walks just to enjoy the soothing effects of a reflective cud.

Winnie Sheehan, the film executive, takes a chew on the sly now and then when he drives his Rolls through country roads, a throw-back to the days when he was a hard boiled police reporter.

Julian Eltinge, foremost of the female impersonators, is also a devotee.

Remembered cries: Charles Wininger's "Happier New Year," Ed Wynne's "So-so-o-o-o!" Al Johnson's "You ain't heard nuthin'!" Fred Stone's "Very good Eddie!" Jack Benny's "Play Frank!" Major Bowes' "All right, all right!" Ben Bernie's "Yow-sah!" Bert Lahr's "Some fun, eh, kid!" Texas Guinan's "Hello Sucker!" Mae West's "You must come up to see me sometime!" and Beatrice Lillie's "Ful-jeez!"

Herb Williams recently revived his knock-down-and-drag-out piano skit at a gambol at the Waldorf. For the evening he borrowed Tommy Lamb, the venerable house cat at the Lambs. Tommy's waking hours are spent largely at the end of the bar in contemplative gazing at celebrity customers. So when the explosion catapulted him out of the piano at the finals of the act, he indulged a bewildered bound over the footlights and down the aisle. Two hours later, drenched by rain, he was at the entrance of the clubhouse, meowing to get in.

Once to every man comes the Big Moment. And that moment—or rather hour—came to Frank Fay in Hollywood recently. Admittedly the suave master of ceremony of his day—no one ever topped his run at the Palace—he somehow landed in the "dog house" in cinema land. The breaks have been against him, the studio doors closing and even fellow players bowing coldly. At an auspicious film gathering Donald Ogden Stuart failed to appear as m. c. at the last moment. Fay was rushed in with no preparation. His reaction was almost as cruel as he took the floor, but for an hour he fairly rocked them with delicious foolery and shrewdly lit thrusts. It was the most versatile and dazzling one-man exhibition Hollywood had seen. Just as suddenly as he began he dusted off his hands as though finishing some distasteful task, threw back his shoulders and walked out of the hall. A sweet revenge!

I've often thought one of the better bits of low comedy was between Fay and the Palace orchestra leader, Benny Roberts, a half dozen years ago. Fay had returned from a London engagement and appeared in a twenty set of Bond street togs with sawed-off vest and pantaloons in mile-wide pleats. "Rather swank, eh what?" he beamed to Roberts. Benny nodded and archly inquired: "Where's he banjo that goes with it?"

A fellow with an uncontrollable roaming eye sat at the adjoining desk of a telegraph office with Ward Morehouse last evening. Morehouse had just written: "Have contracted" when he felt the stranger's gaze and added "leprosy." It worked swell. In his flight the peeper even left his fountain pen, which is a dandy with a dingus to look through that shows the Kremlin by moonlight and everything.

## The Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON, Jan. 2.—The year ending yesterday marked a definite turning point in the political fortunes of Franklin Roosevelt and his New Deal. Future historians may call it something else, but the Merry-Go-Round hereby tags it "The End of the Pedestal Era."

During the year 1935 the people of the United States began to realize that the feet of their President were clay. No longer could he write his own ticket.

The "pedestal era" lasted from March 4, 1933, to Nov. 7, 1934. During that period what little criticism there was of Roosevelt, was undone and apologetic. In the mid-term elections of 1934, he was so strong that many Republican candidates ran on pledges to "support the President."

The result was a landslide that gave the Democratic party a two-thirds majority in both houses of congress.

### OVER-CONFIDENCE

Perhaps the end of the "pedestal era" came partly as a result of over-confidence. At any rate the barometer of New Deal popularity reached its lowest level during the summer of 1935.

Certainly over-confidence was at the bottom of Roosevelt's trouble with congress. There, top heavy Democratic majorities became as recalcitrant as the emblem of the party, and kicked donkey-like at the work-relief bill, the central bank bill, the NRA continuation act, the Guffey coal bill, the holding company act and other New Deal measures.

But the hardest blow delivered at Roosevelt in 1935 came from the hands of the "nine old men." Where others so far had pulled their punches, the supreme court used its most blistering language in tearing the Blue Eagle limb from limb.

It was the signal for the opposition attack. After that, both Republican and Democratic critics, up to that time circumspect, gave the New Deal everything they had.

Even the person of the President, until then considered sacrosanct, came in for an undercover but effective whispering campaign.

Few Presidents with so much political and popular strength have lost so much of it in so short a time.

### RECOVERY

Since congress adjourned last summer, however, Roosevelt stock has been definitely on the upgrade. The President has regained part of his popularity and confidence.

Four factors were behind this: One was the assassination of Huey Long. A daring and ruthless political manipulator, the Louisiana Kingfish was one of the most potent of the enemies centering their fire on the New Deal. His share-the-wealth program was a real menace.

Second was the definite improvement in business conditions. The building industry, virtually at a standstill during the last four years, displayed a real revival in 1935. The automobile industry had one of the best years in its history. Steel, textiles, electrical production—all were on the upgrade. And there is nothing which squeals political discontent as much as prosperity.

Third was relative prosperity among the farmers. For the first time in years, the farmer had

some spare change in his pocket. ever even if he may have had misgivings about the theory of crop control, the farmer had no qualms about accepting AAA checks.

Fourth was the failure of the New Deal opposition to put forward a tangible program.

Net result has been the upturn of the Roosevelt barometer. Many people are against one or more of his policies, as clearly indicated by the Literary Digest poll, but a majority will vote for him rather than swap horses in midstream, as clearly shown by the Washington Merry-Go-Round poll.

### PRESENT POLICY

Roosevelt's policy during the coming months will be to rest on his oars. He will do as little as possible.

Future policy beyond that will depend on two things. One is what the supreme court does to his New Deal program. If the court scuttles the AAA and other important measures, Roosevelt will fight back.

The second is the Republican national convention in June. If the Republicans nominate Hoover, Knox or a conservative candidate, Roosevelt will swing further to the right. He will stress whatever conservative achievements in his administration he can.

But if Borah is nominated, the Roosevelt strategy will be to swing even further to the left, in other words, to out-Borah Borah.

### CANDID CAMERAS

Not many people have noticed it, but no more candid camera pictures of the President are being published. Reason is that they are banned by strict White House orders.

What happened was this: Tom McAvoy, crack candid cameraman, went into the President's office last summer along with other photographers. And while the others were setting up their tripods, he got a whole series of informal views of Roosevelt.

The President was in a highly jovial mood. He was laughing, blowing cigarette smoke in the air, and making faces at his friends among the cameramen. And the camera which McAvoy registered showed some very startling grimaces.

He sold these to the news-magazines for \$750, and they were published just about the time the whispering campaign about the President's health and nervous system was at its height.

Immediately came a White House ban on candid cameras.

### MERRY-GO-ROUND

Last year public health officials stared at their scarlet fever chart and worried when the red pins mounted to new highs. This year the red pins are mounting faster. Number of cases in mid-December, 1935, was 5300; the 1935 figure is 6800. . . Chilean air officials, on arriving in Washington to buy U. S. planes last week received a cable from German aircraft companies offering free passage to Germany if they would inspect their war planes first. . . When Harry Hopkins puts on a modern play as a WPA project, he is obliged to pay royalties to the author at \$50 a week. . . Department of agriculture says ice cream is a barometer of prosperity. The figure on U. S. consumption is slowly climbing from the 1933 low of 150,000,000 gallons toward the 1929 high of 250,000,000.

## Twenty-Five Years Ago

JAN. 2, 1911

FULLERTON.—The high school merger plan which has been earnestly considered many years by citizens of this city and Anaheim was again defeated by a vote of four to one at the board of trustees meeting held last evening. Anaheim has been very anxious for the deal to go through and has urged the adoption of a merger plan several times.

C. E. Grouard, contractor in cement and brick work, is again in the game as a competitor for public patronage in his line, and is ready to give estimates on work. Mr. Grouard is a master mechanic as everyone in this section of the country has abundant proof.

NEW YORK.—All automobile owners in New York city will be compelled to equip their machines with goggles if an ordinance now before the board of aldermen be comes law.

There is \$30,000 worth of building in progress in the business section of Orange at present, with prospects of further operations being started before spring.

From the Los Angeles Times.—The first successful flight by a local aviator at the aviation meet was made yesterday afternoon by Glenn L. Martin, who circled the 2800-meter course once and alighted safely after the regular afternoon program had been completed.

Martin's machine is a Curtiss type biplane of his own make. He has been in the air several times near Santa Ana, where he has been working on his model for some months, so that his spin yesterday was not a new experience for him. He is probably the most successful of the Southern California flying machine builders.

### Let the Moneyed Class Pay Court Costs

SPEAKING of taxpayers' burdens. Some reduction might be made by assessing the cost of justice to those who cause the expense. In simple violations of law the accused is punished with fines and "costs." But who ever heard of a wealthy offender paying costs of legal machinery?

Why tolerate the antics of the cocktail crowd who run from one dizzy whirl to another while the court folks stay at home, or go to church, or mind their own affairs? Much of the cost of policing and regulating and mopping-up is due to the silly carrying-on of the social froth.

Make them pay for it and maybe there wouldn't be so many triangle affairs and monkey-shines. Detectives, policemen, and judges would get a holiday once in a while.

Society has been likened to a glass of beer—the froth on top, the dregs below and the good beer (if there be any such) in between.

The large portion in between has little to do with courts of justice and law enforcement, except pay the bills. The dregs can't do much of the paying.

But the froth could at least pay for that part of the costs directly caused by its own silly, senseless milling around. The effect would be wholesome for everybody.

### SPORT NEWS FROM MUD HOLLOW

Hank Grouard, head coach of the Castoria college eleven, issued the following statement today: "The football rules should be amended to prohibit players from hurling rocks at the cheer leader. Furthermore, ice cream bars, frankfurters and hamburger sandwiches should not be eaten on the field when the ball is in play. And a player should be allowed to stand on the face of another player so long as the ball is in play, unless the other player indicates that he objects by biting his leg." Coach Grouard's suggestions will be taken up at the annual meeting of the National Football association, and nothing further done about the matter.

## Remarkable Remarks

By golly, now I've gotten into a mess. I gave Paul Plavin's plow to my brother Leland. Oh, well, Paul should worry, there's enough plow for both of 'em anyway. And then why shouldn't Leland help buy gasoline for half of it. It seems to me like it's asking too much for one man to buy fluid for an engine as large as it takes to haul the biggest plow in the world.

## SKINNY SKRIBBLES

Around and About Town With C. F. SKRIVEN

A sweeter note is being heard in the orange industry. Packing house refunds are exceeding expectations. So the smile on the face of the rancher is enlarged. Boy, and is he glad. I've met sev-

eral who have expressed their surprise and appreciation. It was a happy ending to what otherwise looked like a drab year to many.

Well, it's over. The Christmas tree "ain't what it used to be." The doo-dads have been locked up and put in storage for another year, lights extinguished, furniture replaced and the old home looks natural again. But we had a good time as long as the season lasted. By the way, I've got three pairs of socks I'd like to exchange for smaller size. What you got to trade?

Three service clubs combined their meeting for last Tuesday, which cleared the way for a broader and happier New Year. With the exception of the few who come within the chairman's appropriation, the meet was satisfactory. Fines helped swell the exchequer to the pleasure of some, while others registered the infliction on the liability side. Service clubs wouldn't be regular unless some member took the count for a penalty of some kind. Stanley Goode fines 'em according to size. He penalized Terry Stephenson \$1 while Harry Gail escaped for 25 cents.

Was going to ask you about your good resolution, but there's no use starting the New Year with any embarrassments. If you want to tell me it's all right, but I'm not going to ask you, although I would like to know. But if you did make one I'll be the last fellow to either ask or encourage you to break it.

Won't be long now before the orange growers will be buying themselves their annual turkey dinner.

"Brick" Gaines took me for a ride yesterday, but it wasn't a gangster trip as I got back alive. He wanted to see Sam Meyer of the Newport Beach News, and other publications. Tried to find Harry Welch but he was in Arizona nursing a bad cold. At least that's what the secretary told us. But Jim Farquhar was in the Huntington Beach News office, while son George was out picking up enough advertising so he could put some bacon on the table. Then Gaines stopped at Midway City to converse with The Journal correspondent. Oh, yes, Secretary of the Huntington Beach Chamber of Commerce Gallienne let "Brick" in on how Huntington Beach was going to win the prize for its division in the Pasadena Rose Tournament, and you know by this time if it did. That's all.

Patrolmen "Brick" Grouard and Hunter Leach are going on the owl shift for a few weeks so the night boys can test out their eyesight in daylight. These changes occur periodically, but as an ocular examination, but to get the force an even break between night and day.

Left a suit of underpants on my desk with a reckless abandon that astonished my associates. The risk never bothered me. As long as Harry Gail remains in Orange my wardrobe is in no danger.

Well, hope you had a Happy New Year, and got over it.
